

**Incy  
Wincy  
Spider**

Listen here- Incy Wincy Spider

**New Vocabulary**  
Locate new vocabulary and discuss the new words e.g. spout

**Descriptions**  
Look at pictures of real spiders and describe what they look like

**Never Give Up**  
What does the spider keep trying to do in the story?  
Does he give up?  
Think of something you find difficult or can't yet do and how you can keep trying

**Fears**  
Lots of people are scared of spiders- but there is no reason to be.  
What are your fears? How can you start to conquer them?  
Discuss language of being scared

Pouring and filling  
Use guttering and filling and pouring utensils to wash plastic spiders away down the spout

Dough Spiders  
Create your own spiders using pipecleaners and playdough—link to maths—how many legs?

Finger Actions  
Teach and use the finger actions for the rhyme "Incy Wincey Spider"

Spider Moves  
Move like a spider or like SpiderMan and shoot some webs!

Webs  
Create a masking tape web over a tuff tray or other tray with edging by taping the tape across in a web shape. Put small objects inside the tray and encourage children to "reescue" them with tweezers.

Wool Webs  
Punch holes around the edge of a paper plate and thread coloured wool through to create a web

### Rhyming Words

There are lots of rhyming words in the story- can you hear them?

Extension for Rec/KSI: Make rhyming web strings-write some rhyming words on spider cut outs and attach them to string with paper clips or staples

### Sssss Spider

Create a Spider cut out and put something beginning with the same sound on each leg

### Sequencing

Sequence the rhyme by pegging pictures to a class washing line

### Mess Free Paint

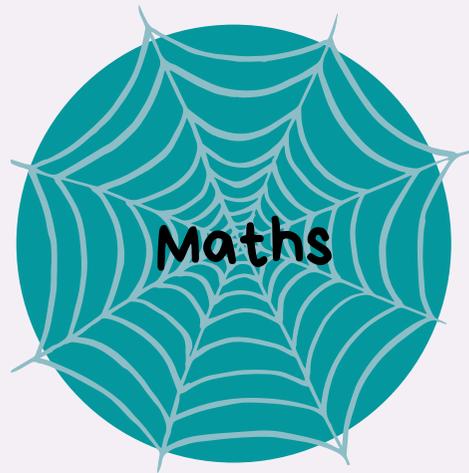

Fill a sealable bag or poly pocket with white paint, place it on a black surface and encourage the children to explore making patterns with their fingers

### Linked Stories

Arrghh SPIDER! By Lydia Monks  
The Very Busy Spider by Eric Carle

## Webs and Spiders

Using paper plates as webs (draw on them with markers) and add numerals. Encourage children to match the correct number of spiders- use comparison language

## Spiders love 8

Spiders have 8 legs and 8 eyes  
Make your own spiders and use your counting skills to give them 8 eyes and 8 legs

## Web Patterns

Spot and talk about the patterns and shapes you can see

## Spider Drive

This is a game to play in small groups. To play you need one dice, and materials for each child to make a spider: a ball of playdough, googly eyes and eight cut up drinking straws. Draw up a pictorial key which shows children that if they roll a 1 they make the spider's body, 2 and they make the head, 3 = an eye, 4 = an eye, 5 = a leg, 6 = a leg. They take turns to roll the dice and add pieces to their spider. The first child to complete their spider wins.

**Spider Hunting**  
Go on a spider hunt and see what spiders and webs you can find. Are there special colours? Patterns? Shapes? Etc.

**Jess Minibeast Adventure**  
<https://m.youtube.com/watch?v=9RtW9zG0854> watch this video and find out all about spiders

**Umbrellas**  
Explore materials and the property of being waterproof. Use you know to design and create an umbrella for Incy Wincey.
